

BARTOSZ AZYMI

Full Stack Developer

Cracow, Poland

bartosz.azymi@gmail.com

PROFILE

Full Stack Developer specializing in SaaS, FinTech and business systems. Ambitious and passionate about programming, growing continuously through commercial experience and self-driven personal projects. Alongside my daily work, I am developing my own desktop security software focused on protecting sensitive local data in an era of increasingly autonomous AI tools.

SKILLS

- React
- Next.js
- TypeScript
- React Native
- Expo
- Java
- Spring Boot
- HTML/CSS
- Tailwind
- SASS/SCSS
- OOP
- REST
- CI/CD
- SOLID
- Git

EXPERIENCE

Full Stack Developer, Codenauts

Apr 2024 - Present
Cracow

- Develop business applications, including SaaS, FinTech, and ERP solutions, using React, Next.js, TypeScript, React Native, Expo and Java (Spring Boot).
- Build high-performance software from reusable, modular components, delivering consistent and seamless user experiences across products.
- Work within Git-based CI/CD workflows, with automated testing and deployment pipelines that accelerate delivery and strengthen team collaboration.
- Design secure, maintainable and scalable systems, with particular attention to API security, authentication, hashing and data protection.
- Apply OOP and SOLID principles to build robust, predictable codebases and reduce the risk of vulnerabilities.
- Focus on state management, performance optimization and responsive design to improve frontend usability and efficiency.
- Design and integrate RESTful APIs that support reliable, maintainable client-server communication.
- Deliver enterprise-grade solutions for large-scale clients, including recognized brands such as V-Label, with an emphasis on scalability, performance and long-term maintainability.

EDUCATION

Cracow University of Technology
Bachelor's degree

Oct 2023 - Present
Cracow

School of Electrical #1 in Cracow
IT Technician degree

2019 - 2023
Cracow
